

REPORT ON

Awareness Programme on COVID-19 infection

Amidst the uncertainty and havoc caused by the Covid-19 pandemic, the Teachers' Unit of Lumding College organized an awareness programme on **How to prevent Covid-19 infection**, to create awareness and disseminate information about the various aspects of the virus amongst people residing in areas in and around Lumding from **10th March to 23rd March, 2020**. The areas being chosen for the awareness programme were Shastri Gaon No.1, Hatikhali no. 2, Bangla Bazar and Mora basti, Lumding.

Every day an assigned group of teachers went from door to door to spread information and awareness. At different venues, the team at first explained what covid virus is. They explained that it is a contagious disease caused by a virus, the severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2). The first known case was identified in Wuhan, China, in December 2019. The disease quickly spread worldwide, resulting in the COVID-19 pandemic. Then the team proceeded to explain the symptoms of being affected and the ways of transmission of the virus and ways the spread can be prevented. They explained that the most effective way to avoid transmission is to washing hands frequently and maintaining social distance. They also added that other ways to avoid transmission was to cover mouth and nose while sneezing, cleaning and disinfecting surfaces, avoiding eating at public places, avoiding any sort of contact with public, wearing mask and self-quarantining oneself if sick. The teachers' groups also demonstrated hand washing techniques to the people and distributed masks.

The teachers' unit, Lumding college, indeed did a commendable job by taking up the awareness programme for a noble cause during a tough time as such.

Some snaps taken during the programme on different days:
